**Please be aware that Shetland Community Connections DO NOT employ the PA.**

We (Shetland Community Connections) merely try to encourage opportunities for those with a Direct Payment package to find out about people who are available for work.

We forward any applications onto the employer, it is then up to the employer if they decide to proceed with the application.

A Personal Assistant is employed by the family with a Direct Payment arrangement. They are the **Employer** and they are responsible for offering a contract of employment.
